Disclaimer

...We can put your private business on the fast track to public trading by reverse merger!

High Quality, Clean, Reporting, Trading and Non-Trading companies looking for merger candidates.

- Reverse Mergers
- Blank Check Companies
- Special Acquisition Companies (SPACs)
- Trading Public Shells (Pink Sheets and OTC-BB Shells)
- Custom Designed Public Companies

We offer business professionals and private companies a cost-effective and rapid method to go public, with benefits such as:

- Access to raise capital through the public markets.
- Public companies are normally valued higher than private companies.
- Possibility of commanding a higher price for a later offering of the company's securities.
- Founders suffer less stock dilution when raising capital.
- Making acquisitions with stock is easier and less expensive.
- Stock and stock options are useful in attracting management.
- Management and employee stock options have more value.
- More liquidity for founders, minority shareholders, and investors.
- Added prestige and visibility with customers, suppliers, employees and the financial community.
